

Teens Dance Intensive Program

About this Program

Welcome to our **Teen's dance intensive training program!**

We focus on teaching dance fundamentals, not just choreography.

Our mission is to create a dynamic and inclusive environment where teens can explore their passion for dance, regardless of their previous experiences. Whether they are beginners or have some dance background, our program is tailored to cater to all skill levels.

Future opportunities include YG audition preparation, dance video filming, performances, and certificates of completion.

Join us and unlock your dance potential!

What we do

Part 1 -

Stretching to improve flexibility

Body Conditioning

Body control exercises

Basic Foundation

Part 2 -

Learn a short choreography applying what was learned in Part 1

Part 3 - (optional)

If desired, students can schedule private 1:1 lessons to prepare for the YG audition, this is to build on individuality as this is something YG looks for (spots limited)

Disclaimers

- This is not a class for leisure
- Designed for people intending for K-pop/Dance auditions
- A growth mindset and willingness to take criticism are the most important as we will be going at a semi-fast pace
- Even though foundations and dance exercises aren't enjoyable they are vital to building dance muscles and ability
