Teens Dance Intensive

Expectations/rules of the class:

- This is a class intended for teens ONLY; parents and adults may not take the class. However, parents may be allowed to watch the first and last 10 min of class if they would like.
- This class is labeled intensive as it is a fast-paced lesson and can be overwhelming to certain individuals and the choreography learned is at an average level of 2-3.
- Children under the age of 11 are not advised to take the class unless they have prior experience taking dance lessons or are passionate about improvement. If the child/teen is overwhelmed by the amount of active learning we are doing then a lower-level class is advised.
- This class teaches more than just K-pop dances! Choreography will be chosen by the teacher in accordance with what the students need to improve upon. At times the teacher will ask the students what dances they'd like to learn and will select the most appropriate for skill building.
